RESPONSE

This is a response to a final rejection enclosed in an Office Action of May 19, 2003. The following remarks and an amendment are submitted to place the application in better condition for allowance or appeal.

AMENDMENT

Please delete claims 50-53 from the present application (cf. also the attachment "Amendment to specification"). Applicant reserves the right to file and prosecute a divisional patent application related to the subject matter of these claims 50-53.
